COURSE OVERVIEW

The MSF30322 - Certificate III in Cabinet Making and Timber Technology is designed for individuals seeking trade-level skills in furniture making. This course covers the manufacturing and installation of timber and other material products, including furniture and cabinetry for new or renovation projects. Through classroom learning and practical tasks, students will learn essential skills such as measurements, sustainable work practices, job costing, hand and power tool usage, manual and CAD drawings, cabinetry installation, and safe handling of hazardous materials.

CAREER OPPORTUNITIES

- **Cabinet Maker:** Manufacturing, assembling, and installing custom and pre-fabricated cabinets.
- **Furniture Maker:** Crafting and assembling various types of furniture from timber and other materials.
- **Joiner:** Producing and installing timber components for buildings, such as doors, windows, and stairs. (Note: Some specialization or further training may be beneficial for certain joinery roles).
- **Cabinetry Installer:** Fitting and securing cabinets in residential, commercial, or industrial settings.
- **Furniture Assembler:** Assembling flat-pack or pre-manufactured furniture.
- **Machine Operator:** Operating woodworking machinery in manufacturing environments.
- **Timber Product Manufacturing Worker:** Contributing to the production of various timber-based products.

Victorian Skills College actively engages with industry to ensure this qualification remains relevant, providing graduates with the skills and knowledge sought by employers in the cabinet making and timber technology sectors.
